Sharon K. Rehn
Program Chair of Surgical Technology
Southeast Community College
8800 O St.
Lincoln, NE 68520

Dear Sharon,

Project HELP (Health Education Laddering Program) is a five year Health Professions Opportunity Grant awarded to Central Community College in 2015 by the Department of Health and Human Services. Our partners include Mid-Plains Community College, Northeast Community College, Southeast Community College and various local and state hospitals and community service agencies.

The goal of Project HELP is to assist income-eligible students with education, training, and supportive services that will place them on a career pathway to jobs that pay well and are in high demand. We currently assist students in the following programs: Registered Nurse, Licensed Practical Nurse, Medical Records & Health Information Technician, Surgical Technologist, Occupational Therapy Assistant, Medical Assistant, Physical Therapy Assistant, Pharmacy Technician, Medical Laboratory Technician, Emergency Medical Technician and Paramedic, and Nursing Assistant and Medication Aide.

To ensure success we offer supportive services to participants in the form of scholarship assistance for books and tuition, laptops available for checkout, uniform and scrub assistance, tutoring, fuel cost assistance to get to and from classes and job search activities, resume workshops, job referrals, interview preparation, and placement testing to aid in finding a fitting career. Our Success Coaches work with participants through intrusive coaching from the outset of enrollment to increase graduation rates.

If any additional information would be helpful please don't hesitate to contact me.

Respectfully,

A handwritten signature in purple ink that reads 'Becky Fausett'.
